FOR GERM DISEASES

Dr. Loew Discovers a New Treatment For Diphtheria Other Diseases.

EXPERIMENTS IN MUNICH

And This Country Have Been Carried on For Several Years in Collaboration With Dr. R. Emmerich—Promises to Supercede the Serum Treatment—Principle of New Discovery.

Washington, June 29.—Dr. Oscar Loew, one of the expert vegetable pathologists of the agricultural department, has developed to what he believes is a point of practical use a new treatment for germ diseases which promises to supersede the serum treatment now in use in diphtheria, fevers and many other diseases. Dr. Loew's work has been carried on for several years in collaboration with Dr. R. Emmerich. The experiments have been conducted in the laboratories of Munich and this country. The results never have been published in full, but have been such as to warrant introducing the treatment into actual hospital practice.

The treatment is similar in some respects to the serum treatment, but depends on a different principle, the basic idea being the presence of a class of ferments known as enzymes, which are produced by the same bacteria that produce the disease. It is because of the production, or rather overproduction, of a certain enzyme that disease such as typhoid "run its course" and then die out of the system. The bacteria in this case, it is stated, are simply killed by the ferment they produce. The object of the new treatment is to produce a pure enzyme, which introduced into the human system, will kill the disease germs without injuring the patient. This differs from the principle of inoculation for smallpox and other diseases, where the object is to give the patient a mild type of the disease to render him immune to the more virulent type.

Dr. Loew and his colleague, Dr. Emmerich, have studied and cultivated the enzymes of various diseases and it is claimed, have found that the enzymes of certain bacteria will kill, not only their parent germs, but also the germs of cholera, typhoid fever, anthrax, diphtheria, black plague, staphylococci and probably gonococci.

CONFEDERATE GRAVES

Those in Arlington National Cemetery Are Well Cared For.

Washington, June 29.—At the instance of Adjutant General Corbin, Quartermaster General Luddington recently instituted an investigation of the published report that the government was neglecting the graves of the confederate dead in the National cemetery at Arlington.

The report of Major T. E. True, the depot quartermaster who has charge of Arlington, has just been filed at the war department. He says: "There are 136 confederate soldiers, civilians and state prisoners now interred at Arlington National cemetery. Of the number, 128 are known and 10 are unknown. These dead are buried with other honorable dead in the cemetery, their graves are known and recorded, are marked with headstones very similar to those marking the graves of union soldiers, bearing the name, but not the regiment, company or state, as in the case of union soldiers; are well sodded and cared for, according to regulations, precisely as the graves of all the other dead in that cemetery are cared for. In short, the confederate dead are honorably interred and honorably cared for. It is hardly probable that they would be so well

"The Jewels of Hope."

Is there any sadder or more pathetic spectacle in this world than that of the poor woman weighed down with wretchedness and suffering who is at last convinced in her very soul that there is no more hope of healthy happiness on this earth? Or is there on the other hand any more delightful and inspiring picture than that of the same woman when the spirit of renewed life comes to her again and holds up before her the jewels of hope, and the regal garments of rejuvenated health and happy complete womanhood?

"I had been a sufferer for more than one year with severe depressing pains in my womb," says Mrs. Annie L. Matthews, a lady living at 30 Broadway, New York. "I had taken all the doctors and different kinds of medicines but all failed to do me any good. I commenced to take Dr. Pierce's Favorite Prescription and also his 'Fetters' and had only taken one bottle when I felt much better. When I had taken four I felt entirely well. I continued to take it and today I am in every way a well woman, and I have found that life is worth living. To all women who suffer with any womb trouble I would recommend this medicine. I thank the Lord that such a doctor as Dr. Pierce was born."

Dedicate, pain-weary women need not hesitate to write to Dr. Pierce. All communications are accepted in absolute confidence; never published without express permission; and always answered with earnest consideration to give the best possible advice of which a life-long professional experience is capable. Such advice is absolutely free.

CANADA AFRAID

Of Reciprocity Treaty Between This and British West Indian Countries.

Washington, June 29.—In official circles the course of Canada in seeking to deal with the British West Indian commissions, which have recently been here to negotiate reciprocity treaties, is regarded as significant of Canada's desire to enjoy all the trade concessions which this country secures with our British neighbors to the southward. The invitation to the several commissions come from the Canadian government, and not from London as was first stated. Two of the commissions have already accepted it and are in Ottawa conferring with the authorities there. Canada and Bermuda have a convention with a "favored nation" clause, but beside the same rates as are granted to the United States, Canada desires further trade arrangements, and doubtless will secure concessions, though the great distance between the ports of Canada and the West Indies is likely to negative these advantages to a large extent.

TWO JAPANESE BODIES

From the Japanese Ship Nippon Maru Found in San Francisco Bay.

San Francisco, June 29.—The bodies of two Japanese sailors of the plague ship Nippon Maru were found in the bay yesterday and towed to a point off shore by fishermen, who were afraid to touch the bodies more than was necessary to attach a rope to them for towing purposes. The corner was notified and the bodies were taken to the morgue, where every precaution is being taken to prevent any spread of disease, should the men have carried any germs with them in the bay.

On the trip of the Maru from Honolulu to this city, a young Japanese girl died of some mysterious disease and was buried at sea an hour after death. Apoplexy was given as the cause of her death, but the affliction seldom seizes one so young, and the Japanese never die of the complaint.

It is believed the disease has been stamped out from the Maru, but she will be kept in quarantine for some time as a precautionary measure.

New York, June 29.—The jewelry and other possessions of Mrs. Phyllis E. Dodge, seized last Saturday upon the arrival of the liner St. Paul, were examined yesterday at the appraiser's office. ROOSEVELT SPEAKS

New York's Governor Addresses Chamber of Commerce at Milwaukee.

THE COUNTRY'S PROBLEMS

She Has Many Serious Ones and She Needs Men of the Best Thought and Wisdom to Carry Out Her Purposes—Plea For Ability and Honesty in Public Life.

Milwaukee, June 29.—Governor Theodore Roosevelt of New York was escorted to the Milwaukee chamber of commerce yesterday just before the hour of closing and given a most enthusiastic reception. In addressing the bulls and bears the famous colonel of the rough riders said it had been a very great pleasure to him to come to Milwaukee.

Continuing, the governor said:

"At the end of the 19th century, as this country moves along on the road to greatness, she has many serious problems to face, and when she needs men to carry out her purposes she can call upon men of the best thought and wisdom, just such men as I am now addressing. You of the great west hold in your hands the future of this nation. It rests with you and you will, I know, show yourselves equal to the task. We always have with us our home problems, and we should aim always to get into public life men of courage, of common sense and of honesty.

No amount of genius or brilliancy can atone for a lack of the element of fearlessness, of decency and honorableness, and no one or two of these will avail unless the man has all three. The ablest man alive, if corrupt, is a danger to the country or community to just the extent of his brilliancy and ability and you, gentlemen, are in honor bound to allow him to feel the weight of your disapproval.

"I don't care how brave a man is, if he is a natural born fool he is not worth knocking in the head.

"If a man is lacking in common honesty he is not fit for public life no matter how brilliant he may be.

"We have certain important foreign problems which confront us. The United States has evidently as great a destiny on the Pacific as on the Atlantic ocean, and whether we live on the former or the latter we must be equally interested in the welfare of the nation upon every foreign question, and we should all see that the nation rises on the Pacific as on the Atlantic, and we have a right to demand of all good citizens to stand by the president, as he upholds the honor and the glory and the greatness of the flag, no matter what the individual ideas may be regarding the Philippine question. We cannot fool with any one who bears arms against our rights and our destiny; the people of the world must be made to realize that we fear none and that we must be obeyed whenever we are contending for our rights. We must treat those who are against us as they deserve, and when we have proven them the right and justness of our cause, then we must treat them with humanity and liberality, and because of their weakness we should be more than ordinarily generous and just with them. And we want to make it understood that while we fear no nation and shrink no duty we desire above all things peace, and we feel that there are three great nations which have interests together. These are America, England and Germany. These should work hand in hand for the solution of the questions that now confront us in the Pacific. Gentlemen, I thank you."

GOLDEN JUBILEE

Of the North American Saengerbund at Cincinnati.

Cincinnati, June 29.—The attendance both of members of musical societies and of visitors on the golden jubilee of the North American Saengerbund is such as to surpass all estimates. The reception committee last reported the attendance of 50,000 visitors. Refreshments were served to all the singers at horticultural hall on their arrival, before escorting them to their respective quarters. Six thousand of meat and sausage, 1,500 loaves of bread and innumerable sandwiches and frankfurters, and 350 kegs of beer and other beverages. The tables were 200 feet long, but it was impossible to accommodate all present at them.

EXCESSIVE JOY

George Jones, a Released Convict, Dies in His Mother's Arms.

Montgomery, Ala., June 29.—George Jones, a negro, died from excessive joy over being released from prison. He was convicted of murder several years ago, but the proof showed he bore no ill will against the victim and the prisoner stoutly maintained he did not know the gun was loaded. His good record and the attendant facts finally brought a pardon. On being released the happy negro hurried to his home near Demopolis. Approaching the old log hut the unexpected corner was greeted by mother, father and sisters, who ran to meet him. The joy was too great and the big lusty man, for whom no task had been too great, swooned with emotion, expiring a few moments later in his mother's arms.

Behind him he left checks to pay some bills, and has since written a local attorney to look after his business affairs. Arriving in Chicago he called on his son, but has not been seen since. His wife has been prostrated since his disappearance. The family refuses to talk on the subject.

Mill Grove, Ind., June 29.—The blowers in the glass bottle factory here have struck because the proprietors refuse to pay union wages. The factory has been operated as a nonunion concern and has no trouble until recently, when organizers of the Flintglass union began working among the men. Fifty men and boys are out. The proprietors say they will never comply with the demands of the union.

Smith of Greenville against J. B. Hunter of Buffalo, Ills., in favor of the defendant. This suit was on a note for \$2,000 found among Smith's papers after his death. Hunter claimed the signature to the paper was a forgery and said he never gave the note. Interests and costs will amount to \$11,000.

BRUTAL TREATMENT

Story of an American Citizen Who Was a Guatemalan Prisoner.

New Orleans, June 29.—The steamship Breakwater has reached this port. She had as passengers the principal actors in a story of Guatemalan brutality, in which American citizens figure as victims. The case is one which was brought to the attention of W. Godfrey Hunter, American minister to Guatemala and Honduras, but in which he failed to act.

The two passengers were John B. Richards and W. H. Harris. Richards sheltered some Americans who were presumed by the Guatemalans to be filibusters. By the kindness which he showed these men, Richards probably placed himself under suspicion of revolutionary tendencies. He had lived in Costa Rica for five years before he went to Guatemala.

Richards told his story to a reporter as follows: "Some months ago Harris came to me and talked me into a prospecting tour in the Zacaapa district. We located a claim where we washed out \$17 worth of gold in an hour. Full of our discovery, we went to the capital of the province, where we meant to prove our claim. We got a lawyer, but before we had finished, the Jefe, or head man of the province, told us to leave the country. Instead, we went back to our claim. Troops were sent after us. Harris escaped.

"I was captured, taken back to Zacaapa and thrown into a filthy room with 30 criminals. I wired Minister Hunter of my arrest, telling him I was absolutely innocent of any wrongdoing. Here is the original telegram I received in reply:

"I have received your telegram of yesterday relative to your order of expulsion; authorities claim to have proof to justify order.

"It was signed 'W. Godfrey Hunter.' 'I was arrested on June 16,' continued Richards, 'kept in the Zacaapa jail for 36 hours, and then taken to Porto Barrios, at the end of a rope and under heavy guard. There I was locked up in a filthy cell and kept for two days without food. When the Breakwater arrived, I was put aboard and my fare paid to this country. My treatment was as cruel as it was unjustifiable. On the Breakwater I found Harris. He had slipped into Porto Barrios, where the authorities had located him, and hustled him aboard the ship, paying his fare to Belize.

"I was almost dead, as a result of the treatment I received, when I was put aboard the Breakwater. We intend to take up our case with the authorities at Washington and see if we cannot obtain some redress. Americans are absolutely helpless in Central America."

ELLEN C. JOHNSON

Death Invades the Woman's International Congress at London.

London, June 29.—Mrs. Ellen C. Johnson, superintendent of the Massachusetts Women's Reformatory, died yesterday at the London residence of the bishop of Rochester, Right Rev. Edward Stewart Talbot, D. D., where she was a guest.

Mrs. Johnson had been in a weak state of health for several days previous to reading her paper before the Woman's International Congress. Her immediate friends attempted to dissuade her from the reading, but she persisted, however, in keeping faith with the public. She returned from the meeting in a state of semicollapse. Death came suddenly in the presence of the bishop's wife. Dr. Barron's diagnosis of the cause of death was angina pectoris.

The fellow delegates of the deceased were much shocked at her death, as Mrs. Johnson attended the duchess of Sutherland's reception Monday, and was apparently in high spirits. The remains will probably be shipped to New York Saturday.

Yellow Fever at Santiago.

Santiago de Cuba, June 29.—Fourteen new cases of yellow fever have been officially reported during the last two days. This raises the total number of cases to 50, of which 12 have proved fatal. APPEAL TO TANNER

Nonunion Negro Miners of Pana Confront With the Governor.

Springfield, Ills., June 29.—O. H. Dorsey and R. H. Prinkleton, a committee appointed by the nonunion negro miners of Pana, saw Governor Tanner late yesterday in regard to the conditions at Pana.

They stated that the Pana operators had brought them from Alabama under false pretenses, agreeing to give them a contract for one year or as long as they wanted to work and had failed to do so. They claimed that the operators had not discharged them, but had simply closed up their mines, paid off all the miners that wanted a settlement, throwing them out of employment, leaving many with little money, and women and children even suffering for the necessities of life and unable to leave Pana. They said the operators have been asked to make provision for sending the negroes back to Alabama, but declined, saying they had all they could do to look after their own affairs, and have absolutely failed to assist their late employees in any manner. They declared the union miners had become the best friends of the nonunion negro miners and that Mayor Corman is doing what he can to aid them.

Governor Tanner expressed his regret at the condition of affairs in Pana and his sympathy with the negro miners and said when he obtained the list he would see what he could do for them.

ALREADY there are evidences that Tom Teggart is changing his mind about being a candidate again. He is susceptible to democratic pressure.

WASHINGTON has organized for another street fair and appointed the different committees. They will begin work at once hoping to outdo their last year's effort.

AT LAST the Kentucky democrats have named a ticket and William Goebel, the nominee for governor, has been named. The Louisville Dispatch, the free silver organ, made a hard fight against Goebel but all in vain. Goebel was once a law partner of John G. Carlisle, of sound money fame.

MADISON has an ordinance prohibiting the smoking of cigarettes in public places within the city limits. Such an ordinance enforced would be a relief to a vast number of people, both men and women. But a prohibition of the manufacture and sale of the cigarette would be better.

ANOTHER point gained by John Overmeyer. He has his picture in the Cincinnati Post today. He looks just like he did when he was a national bank president. But you mustn't say anything about him ever being a banker, or being the owner of bank stock now for if you do his friends will think you are making fun. Call him a statesman.

Much is being said of the amount of property that the mortgage deduction law has taken from the tax duplicates. A better way to state it would be, the amount of property relieved of double taxation. The system of double taxation is wrong and this new law has done away with that wrong to a certain extent. The only objection to the law made by anyone is that so many thousands of dollars in every county in the state now escape double taxation and the amount raised will be correspondingly less. But that is the law's only weakness it will not be repealed soon.

Another Paper Quits.

The Crothersville New Era established about three months ago by W. M. Brown has "thrown up the sponge." Mr. Brown says in his last issue that he ceases publication of the New Era because of a "lack of support and the general contrariness of the people." A very good and sufficient reason. Mr. Brown has put out a very good paper, and as an all around printer and mechanic has shown himself a genius. He goes to Mt. Olivet, Kentucky to publish a paper. May success attend him.

The Wheat is Generally Good.

The local grain dealers are getting in new wheat every day now, for which they are paying 67 cents. The wheat coming in is generally of a better quality than has been grown in this part of the state for a number of years and the yield will also average up quite well. The Bish Milling Company, J. H. Hodapp and the Hygiene Milling Company are all in the market for the new crop.

Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise.

The Jerrell Case.

The trial of the Jerrell damage case is moving along very slowly. Only seven or eight witnesses were disposed of yesterday. Every point is stubbornly contested by both plaintiff and defendant and for that reason evidence is not disposed of very rapidly. The witnesses are not permitted to hear the testimony of each other. The indications are now that the trial will continue all week.

From a Methodist Preacher, Clay City, Ind., Jan 12, 1867. Pepsin Syrup Co., Monticello, Ill. Gentlemen:—It affords me great pleasure to speak in praise of your most excellent medicine. I have suffered quite a great deal from sick headache, the result of sedentary habits and sluggish liver and bowels. Your remedy corrects these troubles and my headaches are stopped. J. C. Boone, Pastor M. E. Church. For Sale by A. J. Pellens, Druggist.

Uncle Charley Bevins is 78 years old today and the occasion was nicely remembered by his family.

Fell From a Shed.

Jay G. Cass, formerly Postal Telegraph messenger, tumbled from the roof of a shed on William Leach's property from where he was watching the O-Jib-Wa concert last night and was picked up unconscious. He was carried over to David Moses' residence and Dr. Hill was summoned who soon brought him around all right. He is apparently all right today.

Cumulative Evidence

A proof of merit in any article is the amount of free advertising it receives. The universal success of Pabst Malt Extract, The "Best" Tonic, is largely due to one person's telling another of the benefits derived from its use. It is sold in almost every city and town in the United States. Its purity and efficacy have given it the immense popularity it has attained. It is endorsed by thousands of physicians and patients. It makes strength. It gives vigor and health when every avenue of hope seems to be closed.

When you ask for Pabst Malt Extract, The "Best" Tonic, do not be led into buying something else. Many imitations have recently appeared. Remember that Pabst Malt Extract, The "Best" Tonic, was the only malt preparation declared perfect by the judges at the World's Fair, and alone marked with 100 points of perfection. The way to obtain the greatest amount of benefit for the least amount of money is to have your druggist deliver you a dozen bottles at a time.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. Pickled Pine. The ties on the Santa Fe track in California are "pickled" in a solution of chloride of salts of zinc. There are three or four big "pickling" establishments at intervals along the road between Albuquerque and Los Angeles. The process makes a pine tie immortal. In this dry atmosphere it lasts forever. The Santa Fe tracks through the desert are sprinkled with oil to keep down the dust. The oil is renewed once in three years. It costs \$30 a mile, and it is worth many times the money to the passengers.—San Francisco Examiner.

Troubles of Her Own. "I am so troubled about my husband," said Mrs. Badman, seeking sympathy from the pastor's wife. "He goes from bad to worse. He is an infidel and an atheist, and now he says he is an agnostic, and doesn't know anything, and doesn't believe anything, and doesn't think anything."

"My dear sister," replied the pastor's wife, "you don't know what trouble is. My husband thinks he knows how to cook."—San Francisco Argonaut.

William Fenley and wife of Newport, Ark., came here today to spend some time with McHargue and family of Medora.

JOHN ROBINSON'S CIRCUS.

Will be in Seymour Saturday July 15.

The advertising car with press agents a score of bill posters and Gil Robinson himself came in last night to advertise John Robinson's big circus which will show here Saturday July 15. They have billed the town thoroughly, so that it matters not which way you turn you see pictures of elephants, and tigers, and bears, and monkeys, and birds and snakes and every other animal imaginable. They have a big circus and have continuous performances in three rings. Besides the menagerie and circus is the colossal Biblical Spectacle, King Solomon, his great temple and the Queen of Sheba.

The man claimed to be from Chicago and the lady from Louisville.—Banner.

Indiana's Wheat Crop.

Indianapolis grain dealers say that from information at hand the wheat yield in Indiana will not exceed 18,000,000 bushels. Early in the spring it was expected that the yield would be nearly three times that amount. The best wheat is in the south central portion of the state. North of Indianapolis the crop is not so good.

DR. CURRY
Sentenced to Twenty-One Years For
Criminal Assault on Minnie Lemon.
Marion, Ind., June 29.—The jury in
the case of Dr. John F. Curry, charged
with criminally assaulting Minnie
Lemon, a 14-year-old girl, brought in a
verdict of guilty yesterday afternoon
and recommended that the sentence be
21 years in the state prison.

Dr. Curry took the Lemon girl from
the Children's Receiving home at West-
field, Jan. 4, and the evidence proved
that he attempted to make her his mis-
tress. Rev. F. M. Elliott of Indianapolis,
superintendent of the Children's
Home Society, assisted in the prosecution.
Curry was charged with being
connected with a gang of thieves, and
that his home was a rendezvous for
thieves. Stolen property was found in
his house and barn. Dr. Curry nearly
fainted when sentence was pronounced.

KILLING OF TERRILL
Inmates of the Soldiers' Home Or-
ganized For Self-Protection.
Jonesboro, Ind., June 29.—The veter-
ans in the National Military Home at
Marion have become aroused at the kill-
ing of James Terrill, an inmate, here by
young Wiley last week. They have or-
ganized a protective association for the
purpose of procuring counsel to prose-
cute Wiley, or any other person who
may inflict injury upon their comrades.
Terrill is the third soldier who has been
killed here within the last year. Wiley
is a young athlete, 24 years old. He
struck Terrill several times with his
fist, and, as alleged, then used a club,
the old soldier crying for mercy. George
Bumley, a citizen, attempted to inter-
fere, and was also struck, and the city
marshal was then compelled to draw his
revolver before he could compel Wiley
to desist.

Wheat Harvest Ended.
Liberty, Ind., June 29.—The wheat
harvest in this county, which has just
ended, has been remarkable in several
ways. It is the earliest known in 90
years. Every field of wheat in the
county ripened at the same time, a con-
dition never before known here. The
crop, while not so good as last year,
will yield an average of 18 and 20 bush-
els to the acre and the grain is plump,
firm and bright and will weigh up well.

Faith Healer Failed.
Richmond, Ind., June 29.—Sylvester
Partridge, 96 years old, died very sud-
denly yesterday, and Coroner Witts is
investigating. It is alleged that Par-
tridge had been under the care of a faith
healer, and that he had not been de-
clared alarmingly ill. Yesterday, soon
after a visit from the healer, he dropped
dead.

Mrs. Shaw's Condition.
Osgood, Ind., June 29.—Mrs. Albert
Shaw, who was a victim of the robbery
here, continues in an alarming con-
dition. In addition to the nervous shock
sustained when she was seized and
gagged, she was hurt internally, having
been kicked by the burglars. There is
no clue to the identity of her assailants.

Jeffersonville, Ind., June 29.—Small-
pox has broken out in this city again.
George Davis, a colored boy, was found
in the streets with the disease. He was
a servant in the officers' quarters of the
One Hundred and Sixty-first Indiana
while the regiment was in Havana. He
had been complaining for a week.

Bright With a Cat.
Bryant, Ind., June 29.—Burley An-
derson and wife, near here, were at-
tacked by a strange cat, which found its
way into their house. Mrs. Anderson
was bitten through the wrist and An-
derson twice through the right hand.
He could only get the animal loose by
choking it to death with his left hand.

Newspaper Office Burned.
Hope, Ind., June 29.—Fire destroyed
the newspaper office of The Record here
yesterday. It was insured for \$800. Ad-
joining buildings were saved by the
bucket brigade.

Pretty Children

"We have three children. Before the
birth of the last one my wife used four bot-
tles of MOTHER'S FRIEND. If you had the
pictures of our children, you could see at
a glance that the last one
is healthiest, prettiest and
finest-looking of them all.
My wife thinks MOTHER'S
Friend is the greatest
remedy in the
world for expect-
ant mothers."—
Written by a Ken-
tucky Attorney-at-
Law.

MOTHER'S FRIEND prevents nine-tenths of the
suffering incident to child-
birth. The coming mother's
disposition and temper remain unruffled
throughout the ordeal, because this relax-
ing, penetrating liniment relieves the
usual distress. A good-natured mother
is pretty sure to have a good-natured child.
The patient is kept in a strong, healthy
condition, which the child also inherits.
MOTHER'S Friend takes a wife through the
crisis quickly and almost painlessly. It
assists in her rapid recovery, and wards
off the dangers that so often follow deliv-
ery.

Spanish-American War Panorama

Is one of the war books which is like-
ly to be in continuous demand. It is
a panoramic record of the triumph of
Yankee Doodle. The eagle flaps his
wings on every page, and "Old Glory"
waves around and above every scene.
Prominent officers connected with the
war are here portrayed, as well as
many of the "men behind the guns."
Military life is pictured to the eye
from recruiting to guard mount and
skirmish line. Nor is the ludicrous
omitted. The company cook receives
the attention due to his importance
the mess is shown; cavalry scenes are
given; the hospital arrangements are
depicted; the heroines of the Red
Cross service are displayed; street
scenes in Havana, Santiago and else-
where are unrolled, the new citizens or
subjects (which are they?) of Uncle
Sam, appear and disappear as the
caves are turned.

In a word, the gazes visits the new
localities and sees the tumultuous new
life, without the risk or expense of a
sea voyage.
